Summary:

Robert Scott Katz steals from the background and credentials of other people named Katz and claims he holds jobs like theirs, has education like theirs and in some cases has skills or accomplishments of theirs.

He makes uncorroborated claims of pioneering what became GPS tracking, internet email, autonomous vehicles, IoT, the whole internet, and the Mars Rover. He states that he has "captured" over 10 billion dollars in C5ISR contracts and that he himself has worked on projects for DHS, DOD, NIST, FEMA, Naval Postgraduate School, MIT, George Washington University, NRL, NASA, JHU/APL, CIA, NGA, FBI, DEA, NOAA, plus the Departments of State, Transportation, Justice, and Treasury. "For these, he often headed teams for major integrators, such as Booz Allen, Northrop Grumman, SAIC, and Lockheed Martin", Hubble Space Telescope, Trident, Patriot, Iron Dome.

He belongs to 635 meetup groups and hundreds of LinkedIn groups, and has an unusually large number of very detailed testimonials on LinkedIn which we speculate have been written by paid freelance writers.

Multiple freelancers and graphic artists have sued him, created a Facebook page about his crimes, created a website stating that he is a con man, created GlassDoor reviews detailing the fraudulent experiences with Robert Scott Katz.

He claims to be a firefighter, EMT, a rescue diver, and claims to have gone to Israel to be trained to put out fires started by Hamas shelling, claims to have organized Urban Search and rescue (USAR) missions for Haiti. In a promotional video about himself, he is composited onto a stage with thousands of blue colored people watching him on a stage with one of his many dubious company logos projected hundreds of feet high around him. He poses for a moment in the video with a fireman's pickaxe. He may have actually been a firefighter of some kind in Maryland at one time, or at least appears to be wearing a uniform and being interviewed on a news clip on YouTube, although he was nowhere near any kind of actual action.

His YouTube channel features firefighting and emergency / disaster diving news videos and he claims to have rescued people underwater but the links to news footage are not about him. He states that he is an "emergency medicine professor".

Wikipedia has removed negative information posted about him, but also has removed multiple unverifiable claims he has made, pointing out that websites that run the bio he wrote have not verified what is in his bio. What remains on Wikipedia is sufficient for people who make a cursory check of him to believe some of what he says, leading to success at fooling his next victims.

He has at least \$30,000 in civil judgements against him and an as yet undetermined number of constantly shifting company names and schemes. He appears to frequently attend cyber security related conferences and some of his schemes may have taken advantage of Asians who were part of or claimed to be part of a conference that Robert Scott Katz may or may not have actually held. He has found other people named Robert Katz with the middle initial S and uses some details from their life. Care is required when looking at any person to determine if you are looking at Robert Scott Katz born 1/24/1965 or a different Mr. Katz.

Untrue Claims of Inventions and Affiliations

About the Author

Robert Katz is an internationally renowned innovation-entrepreneur, business-builder, and even rocket-scientist. He pioneered many of today's ground-breaking systems, including the first global IoT application, GPS tracker, wireless messenger, internet email, and autonomous vehicle.

Beginning at MIT, he directed countless cyber, defense, and Intel initiatives for major civilian, defense, industrial, laboratory, academic, and allied agencies. Robert often led, taught, and advised major US, Israeli, Asian, and European teams, such as for Booz Allen, BAE, Northrop Grumman, and Lockheed Martin.

As CEO of Scale-Up Global, he accelerates ecosystem launches and market success for critical cyber innovation.

Company Summary

Scale-Up Global enables the success of emerging Israeli cybersecurity companies in the U.S. market by providing the full set of operating functions needed to succeed. These services are provided through partnerships with best in class front and back office service providers, leading technical solutions, and Subject Matter Experts. Scale-Up maintains a team of industry focused sales personnel as well as operation managers to coordinate services

Team

 **David Roggen**

<https://gust.com/companies/scale-up-global>

https://en.wikipedia.org/w/index.php?title=Robert_S._Katz&oldid=826121964

- His early work as an MIT rocket scientist included leadership of a Presidential Tiger Team to refocus components of the long-term Star War Strategic Missile Defense Initiative into an immediate, near-term theatre protection system. This work became THAAD, and later the Patriot, eventually becoming Iron Dome.
- Katz has lead numerous cyber, national, and homeland security-related C5ISR initiatives for the Pentagon, and its civilian, industry, laboratory, and academic partners. These include major projects for MIT, NRL, NASA, JHU/APL, FBI, DEA, DHS, ATFB, Marshal Service, US Secret Service, NIST, NOAA, and the Departments of Defense, State, Transportation, Justice, Education, and Treasury, as well as for CIA, NSA, DIA, and other U.S. Intelligence Community members.
- Robert's operational response roles include serving as a firefighter-paramedic responder and instructor, as a dive and swiftwater rescuer, and as an emergency medicine trainer. This includes supporting CONUS responses as well as for the Haiti Earthquake, Japan Tsunami, and the Nepal Earthquake..

Claims regarding rescue in Haiti

<https://www.firehouse.com/home/news/11070176/in-times-of-disaster-neighbors-need-to-help-neighbors-freeing-up-firefighters-and-ems-workers>

Now Katz is an **Adjunct professor at George Washington University and helped organize Urban Search and rescue (USAR) in Haiti.....** "Firehouse Expo class presenter Robert S. Katz, an adviser for the Department of Defense, Department of Homeland Security, the Federal Emergency Management Agency, an adjunct professor at George Washington University and paramedic, taught a class on "MCI and Emergency Management: It Takes a Village." *"Katz said he was pleased to be able to help organize Urban Search and Rescue (USAR) teams to deploy in Haiti"*

Claims regarding fire fighting in Israel

<https://washingtonjewishweek.com/14851/grass-fire-diplomacy/news/world-news/>

“The two men were part of a team of 12 American firefighters who headed to Israel for at least a week as part of the Emergency Volunteers Program, an Israeli nonprofit that recruits and trains emergency personnel in America to help when needed.

After learning Israeli firefighting techniques, Goldberg and Katz were thrust into action.

Whenever a siren went off, they rushed to the nearest shelter. “As soon as we got the all clear, or heard a bang, we started getting dressed” in their firefighting gear, Katz said. If a Hamas rocket landed in a grassy area, they had to put out the resulting brushfires, said Katz, explaining, “It’s very dry there.” Even rockets intercepted by the defensive **Iron Dome** system usually resulted in a brushfire from the resulting shrapnel, which “can cut trees in half,” Katz said.“

<https://www.washingtontimes.com/news/2014/jul/16/us-firefighters-emergency-responders-volunteer-to-/>

Katz claims to be a **teacher at University of Maryland (is a Katz teaching there but not our guy)** and is the firefighter that went to Israel in this Washington Channel 4 piece-

<https://www.nbcwashington.com/news/local/Md-Firefighter-Teacher-Heads-to-Israel-to-Volunteer-267251151.html> (this news article has now been pulled by the news agency)

Washington business journal- says he's an emergency medicine professor in this article + unbelievable myriad of credentials

<https://www.bizjournals.com/washington/promo/israel-tabach/rkatz>

“Later, he went on to lead numerous cyber, national, and homeland security C4ISR initiatives for the Pentagon, and its civilian, industry, laboratory, and academic partners. These organizations include MIT, NRL, NASA, JHU/APL, CIA, NSA, FBI, DEA, DHS, NIST, NOAA, plus the Departments of State, Transportation, Justice, and Treasury. For these, he often headed teams for major integrators, such as Booz Allen, Northrop Grumman, SAIC, and Lockheed Martin.

His early cyber work pre-dates even the term “cyber,” including trailblazing contributions to Star Wars missile defense to ensuring network security, information assurance, jamming protection, and anti-spoofing for satellite sensors and missile interceptors. Additional cyber-space engagements involved securing the Hubble Space Telescope, Trident, Patriot, Iron Dome (**see page 14 for more info on this item**), and multiple platforms for NASA, NOAA, Intelsat, and Inmarsat.”

Katz claimed to have been a **speaker for NSA Influence 2015**-conference below is link to all speakers and **Robert S. Katz** is not on the speaker list-
<https://nsainfluence2015.sched.com/directory/speakers>

https://www.emstoday.com/content/dam/Events/EMS/Documents/DisasterTerrorism/ICDTP2013_Brochure.pdf - A bio for a conference in 2013 on pg 12.

(Katz did all this and is coming to DHS S&T expo as a member of the media??)

Robert S. Katz
is a homeland security consultant
by day, firefighter-paramedic by night. He has
led countless initiatives, including **multiple
assignments for MIT, NIST, Navy, NASA, DoD, State,
and UN missions focused on surveillance within
domestic and OCONUS theatres.**

Wikipedia Removals of Unverifiable Claims:

From Robert S. Katz Facebook page

Legitimate: Jonathan Katz, Maryland Cybersecurity Center

False: Robert Scott Katz claims affiliation with UMD

Robert Scott Katz has lifted some of Jonathan Katz affiliations such as ManTech, Lockheed Martin and Northrop Grumman.

<https://umdrighnow.umd.edu/news/katz-named-director-maryland-cybersecurity-center>

This is the Katz that works at the University of Maryland. **Robert S Katz falsely claims to work at University of Maryland on his facebook page.**

Jonathan Katz, professor of computer science, was appointed to a three-year term as director of the **Maryland Cybersecurity Center (MC2)** effective October 24.

He will provide leadership to the unique center that joins computer scientists and engineers with researchers from across campus in fields such as economics, supply-chain management and the social sciences.

"The threats and challenges in cybersecurity continue to grow exponentially. We intend to respond in-kind using innovative research and education," says Patrick O'Shea, UMD's vice president and chief research officer. "Jonathan Katz is the perfect candidate to lead these efforts."

MC2 was launched in 2010 with strong support from the **A. James Clark School of Engineering** and the **College of Computer, Mathematical, and Natural Sciences (CMNS)**. Since then, the center has fostered numerous collaborations in cyber-related research, education and technology development with major corporations that include ManTech, Tenable, Lockheed Martin and Northrop Grumman.

"I look forward to working with our students, faculty and external partners to help prepare the future cybersecurity work force and to develop new technologies to defend against cyber attacks," says Katz, who brings more than a decade of experience in research and education to his leadership role at MC2.

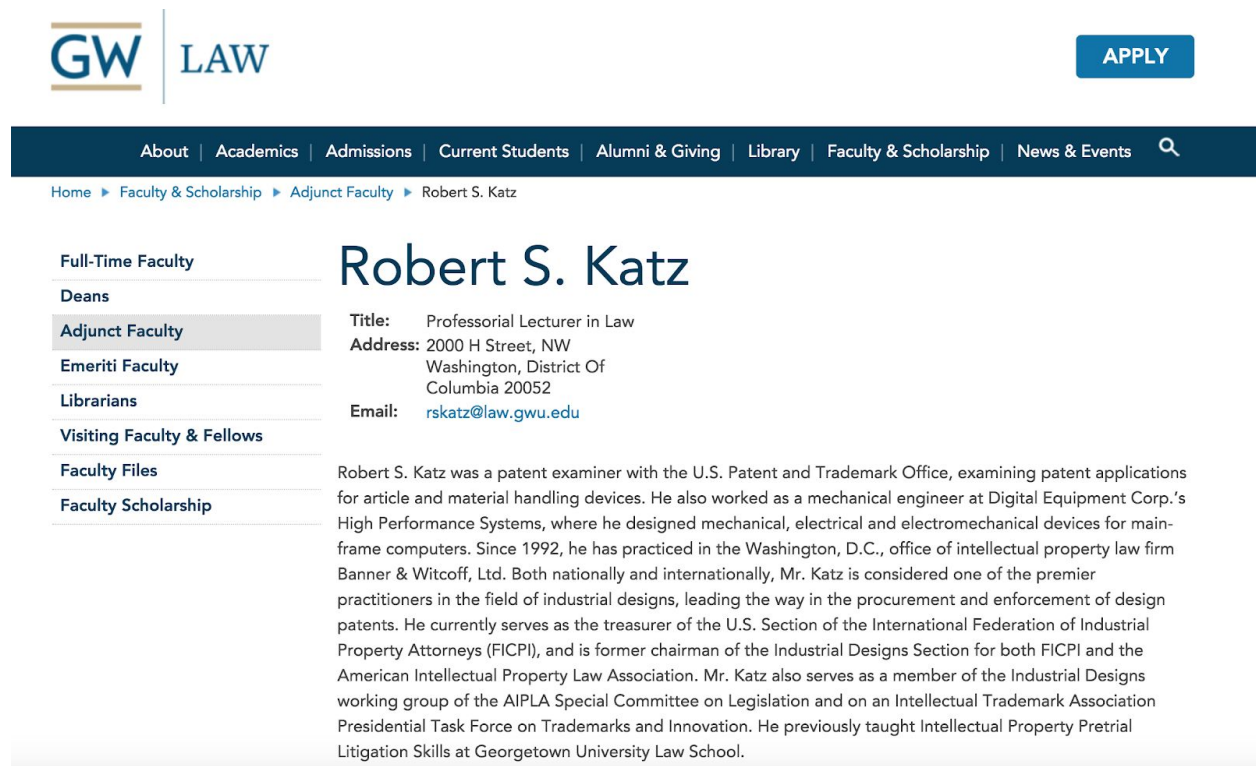

Katz joined the faculty of the University of Maryland in 2002, having previously worked as a research scientist at Telcordia Technologies (now Applied Communications Research). He has held visiting positions at the University of California, Los Angeles, the IBM T.J. Watson Research Center in New York, and the École Normale Supérieure in Paris.

Legitimate: Robert S. Katz, a real GWU professor

False: Robert Scott Katz claims to be Adjunct professor at GWU

Robert S Katz falsely claims to work at George Washington University (on his Facebook page)
The only Robert S. Katz at George Washington University is a law professor and a lawyer at Banner & Witcoff, Ltd

The screenshot shows the GW Law website. At the top left is the GW LAW logo. To the right is a blue button labeled "APPLY". Below the logo is a dark blue navigation bar with links: About | Academics | Admissions | Current Students | Alumni & Giving | Library | Faculty & Scholarship | News & Events. A search icon is on the right. Below the navigation bar is a breadcrumb trail: Home > Faculty & Scholarship > Adjunct Faculty > Robert S. Katz. On the left is a sidebar with a list of faculty categories: Full-Time Faculty, Deans, Adjunct Faculty (highlighted), Emeriti Faculty, Librarians, Visiting Faculty & Fellows, Faculty Files, and Faculty Scholarship. The main content area features the name "Robert S. Katz" in large blue text. Below the name are his contact details: Title: Professorial Lecturer in Law, Address: 2000 H Street, NW, Washington, District Of Columbia 20052, and Email: rskatz@law.gwu.edu. A detailed biography follows, stating that Robert S. Katz was a patent examiner with the U.S. Patent and Trademark Office, worked as a mechanical engineer at Digital Equipment Corp.'s High Performance Systems, and has practiced in the Washington, D.C., office of intellectual property law firm Banner & Witcoff, Ltd. It also mentions his roles in the U.S. Section of the International Federation of Industrial Property Attorneys (FICPI) and the American Intellectual Property Law Association.

False claim: works at Montgomery College

Robert S. Katz falsely claims to work at Montgomery College (on his Facebook page)
He is not listed in the college directory.

Scam Complaints from Unpaid Writers & Graphic Artists

Robert S Katz company- Innovation Intelligence Institute

Glassdoor has multiple reviews saying this man does not pay his contractors

<https://www.glassdoor.com/Reviews/Cyber-Science-Institute-Reviews-E1658927.htm>

Here is a sample below

Nov 7, 2018

"SCAM ARTIST: WARNING"

Current Contractor - Digital Strategist

 Doesn't Recommend  Negative Outlook

I have been working at Cyber Science Institute as a contractor (Less than a year)

Pros

He seems to be very nice, very professional, and quite charming — but it's all a facade to get free work out of people.

Cons

I worked with Robert Katz for 4 months. During the first month, we worked great together. We talked on the phone 3-5 times a week for hours at a time as I helped him overhaul his strategy and branding. He paid me after the first month and work went along as scheduled.

However, after that, we continued to work together and I continued to give him 20/hours of work a week for 3 more months. When I sent him an ...

Asked a friend who's sister went to MIT to check alumni site-

"Hi, Just heard from my sister. She says that there was no Robert S. Katz listed (for any year) in the MIT alumni directory she checked on-line".

Conference

Power Grid Resilience conference

🕒 ~~23-25 Mar 2015~~ (Cancelled) ([notify new dates](#))

📍 Washington DC, USA

Interested

FALSE: Testimonial on Robert S Katz LinkedIn Page. This conference was cancelled, yet Carlos White gives a glowing testimonial about Robert Katz's talk.

Carlos White

Sr. Security Coordinator at
CenterPoint Energy

July 2, 2015, Carlos was a client of
Robert's

I had the opportunity to hear Roberts's presentation at the 2015 Power Grid Resilience Conference earlier this year. I found it interesting, convincing, and applicable to the conference topics. Robert delivered the information on a serious subject matter keeping the audience engaged with a dose of humor while making relevant points. I would certainly recommend attending one of his sessions in the future if given the chance to do so.

Robert S. Katz

Title: Professorial Lecturer in Law

Address: 2000 H Street, NW
Washington, District Of
Columbia 20052

Email: rskatz@law.gwu.edu

Robert S. Katz was a patent examiner with the U.S. Patent and Trademark Office, examining patent applications for article and material handling devices. He also worked as a mechanical engineer at Digital Equipment Corp.'s High Performance Systems, where he designed mechanical, electrical and electromechanical devices for main-frame computers. Since 1992, he has practiced in the Washington, D.C., office of intellectual property law firm Banner & Witcoff, Ltd. Both nationally and internationally, Mr. Katz is considered one of the premier practitioners in the field of industrial designs, leading the way in the procurement and enforcement of design patents. He currently serves as the treasurer of the U.S. Section of the International Federation of Industrial Property Attorneys (FICPI), and is former chairman of the Industrial Designs Section for both FICPI and the American Intellectual Property Law Association. Mr. Katz also serves as a member of the Industrial Designs working group of the AIPLA Special Committee on Legislation and on an Intellectual Trademark Association Presidential Task Force on Trademarks and Innovation. He previously taught Intellectual Property Pretrial Litigation Skills at Georgetown University Law School.

Ariel Katz

Response Analyst
Fire Fighter/Paramedic
American University

Ari Katz is majoring in international relations at American University. Among his many accomplishments and projects, he served as a disaster reconnaissance leader in Haiti after the 2010 hurricane and as a rescue intelligence logistics liaison for relief ops in Japan earlier this year. In this session, he will provide the invaluable perspective of the next generation the GIS workforce, and how their experiences and expectations will change the status quo.

Civil Air Patrol publication from 2011 with story about Ariel Katz (pg 25). In the story the father Robert Katz is listed as being a consultant/working with Google and Carnegie Mellon.

Ari Katz states he got a BA in “International Studies” here, would need an alumnus to check:

ARI KATZ

WRITTEN BY INTERVIEW BY BATYA H. CARL ON 04 MAY 2017. POSTED IN YOUNG PROFESSIONALS SPOTLIGHT

0 Comments

Like 13 Share

Ari, 27, has worked in consulting for defense and homeland security solutions development since college. A Maryland native, he attended Berman Hebrew Academy and Churchill High School and spent time learning in Israel. Ari currently works in data science and strategy for Scale Up Global, a startup that specializes in bringing global cybersecurity innovation into the U.S. commercial and government markets. He loves science and philosophy, and the philosophy of science; he also loves basketball, hanging with friends, eating, learning Torah, playing guitar, cracking jokes, and singing and thinking about cross-domain problems and ideas.

In above article Ari says that John Travolta flew Ari to Haiti in Travolta's private 707 jet, where they passed some time together on the tarmac discussing Travolta's firefighter movie Ladder 49.

What can be verified is that Travolta flew his 707 to Haiti as there are multiple articles discussing this as well as the trackability of the id numbers for that plane. Travolta is said to have transported 6 tons of MRE as well as yellow-shirt Scientologist healers who touched people who had problems in the Hatian hospitals such as missing legs. There was controversy regarding the Scientologist visitors. So far what the results or activities of Travolta's delivery to Haiti have not been found in news articles.

Ari was 27 at the time of this article, making him 13 when he started Civil Air Patrol. This is possible, due to the cadet program:
